To whom it may concern,

As a teacher who teaches in a rural town in teh Adirondack Park, NY I am writing to you concerned about the increase in shipping costs for educational materials. This community is full of low income families who cannot afford resources for education. It is difficult already for families to get the materials and resources they need to supplement their children's academics. Scholastic provides low cost books that we as teachers purchase for these families. The increase in shipping will drastically and negatively impact our families. Please help these children get the academic support they deserve!

Thank you.
